Brand New Book ***** Print on Demand *****.Volume III is the latest book in this louche catharsis centered around the introverted random tangent. This episode takes place 7+3+2 years later as she tackles reality vs. fantasy with the moon as her companion. Her mind wanders off into the past blurred into the present forcing her to question the decisions she has made since and why they continue to torment her. She spends much of her time analyzing if her instincts and life s clues are deliberate, psychic or is she grasping at straws. Tesla Coil is the third unedited tale for the Supercharged Combustion series riddled with erotic metaphors, imaginary conversations and inner thoughts. She is challenged with the fantasy of love lost, the connections with our past and how their gravity and coincidences are too strong to ignore.

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
